

Rail Passenger Satisfaction at a glance: c2c - Autumn 2015

Transport Focus is the independent transport-user watchdog. Our mission is to get the best deal for transport users. In spring and autumn we carry out the National Rail Passenger Survey (NRPS), a network-wide picture of passengers' satisfaction with rail travel in Great Britain.

We ask passengers for their views of the specific journey they are making at the point they are surveyed, both in general and on a number of specific areas regarding the station, the train and the service received.

For c2c this time we spoke to 1087 passengers. This page shows the headlines. Page 2 shows satisfaction with individual aspects of the station and the train. Page 3 looks at some factors in a bit more depth. The last page shows which factors have the biggest effect on satisfaction and dissatisfaction.

How routes are defined

Southend line:

Journeys starting from any station on the main route between London Fenchurch Street and Shoeburyness (except Pitsea).

Tilbury line:

Journeys starting from any station on the Tilbury loop lines between Dagenham Dock/Ockendon and Pitsea.

Satisfaction at the station where they boarded

Satisfaction on the train

Satisfaction - in a bit more depth (Autumn 2015)

Overall satisfaction - by route and journey type

Cleanliness inside the train

% rating as good

Ease of getting on/off

% rating as good

Overall station environment

% rating well

Value for money

% satisfied

Punctuality/reliability

% satisfied

Frequency of trains on route

% satisfied

What impacts on satisfaction and dissatisfaction?

Not all factors will have equal importance - some things will have a much bigger influence on whether a passenger is satisfied with the overall journey than others.

The charts below show which station and train factors are statistically most important in determining overall passenger satisfaction and dissatisfaction.

The analysis looks at which factors correlate most highly with overall journey satisfaction. For example, if those satisfied with punctuality are much more likely to be satisfied overall, then punctuality is likely to have a bigger impact on overall satisfaction. The higher the percentage figure below, the greater the influence on overall journey satisfaction.

What has the biggest impact on overall satisfaction?

- Cleanliness inside the train
- Ease of getting on/off
- The frequency of the trains
- Punctuality/reliability
- Overall station environment
- Others

What has the biggest impact on overall dissatisfaction?

- How train company dealt with delays
- Ease of getting on/off
- Journey length
- Punctuality/reliability
- The frequency of the trains
- Others
