

Rail Passenger Satisfaction at a glance: Thameslink - Autumn 2015

Transport Focus is the independent transport-user watchdog. Our mission is to get the best deal for transport users. In spring and autumn we carry out the National Rail Passenger Survey (NRPS), a network-wide picture of passengers' satisfaction with rail travel in Great Britain.

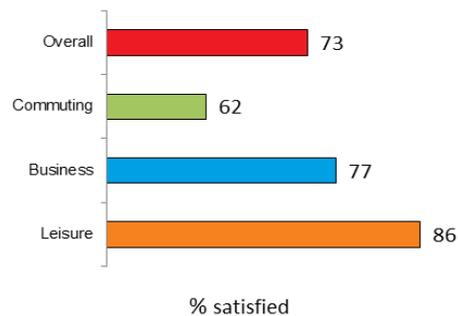

We ask passengers for their views of the specific journey they are making at the point they are surveyed, both in general and on a number of specific areas regarding the station, the train and the service received.

For Thameslink this time we spoke to 1081 passengers. This page shows the headlines. Page 2 shows satisfaction with individual aspects of the station and the train. Page 3 looks at some factors in a bit more depth. The last page shows which factors have the biggest effect on satisfaction and dissatisfaction.

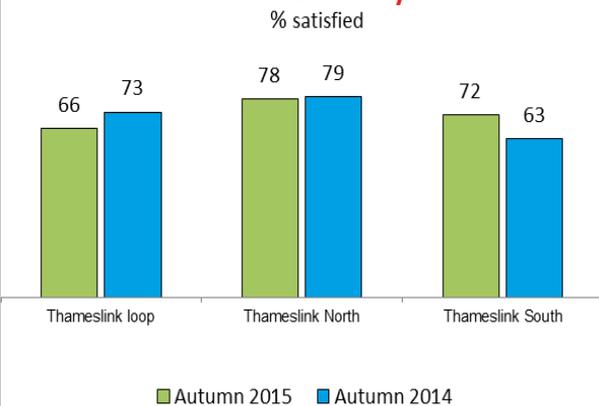

Overall satisfaction with the journey

Overall satisfaction by journey purpose

Overall satisfaction by route

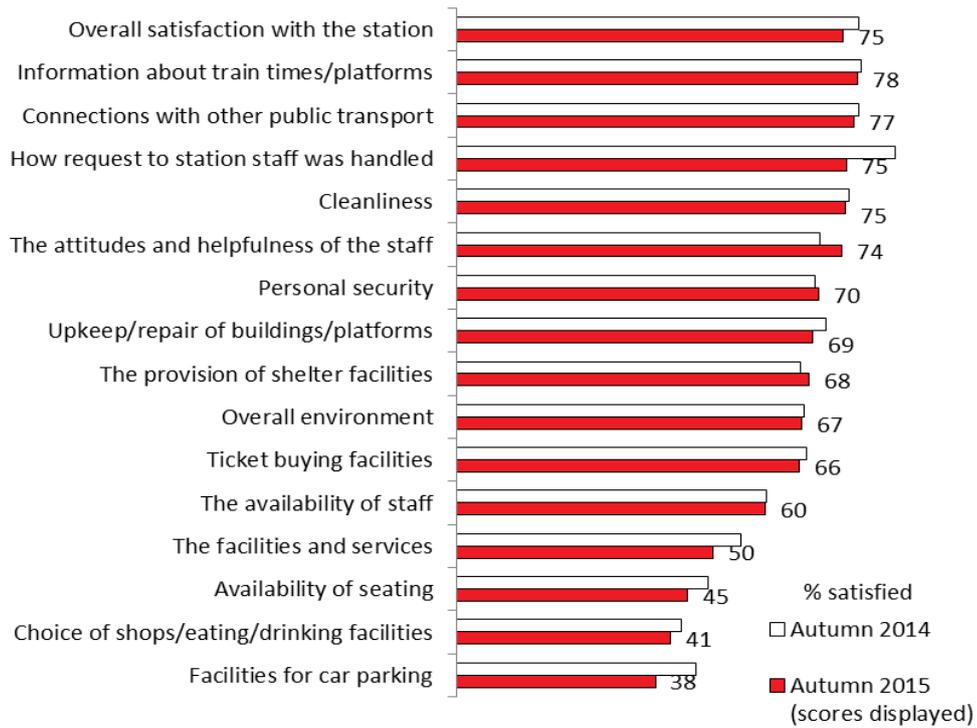

How routes are defined

Thameslink loop: Journeys starting from stations on the route via Wimbledon, including stations as far north as City Thameslink

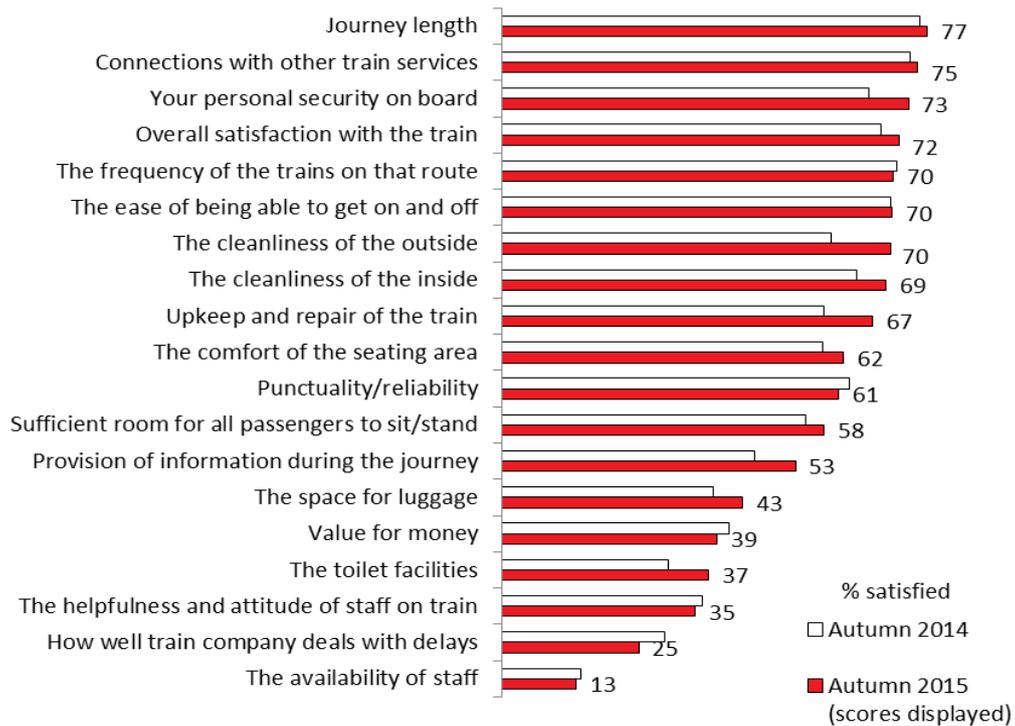

Thameslink North: Journeys starting from stations on the route between Farringdon and Bedford

Thameslink South: Journeys starting from stations between London Bridge and Brighton. Also some journeys starting on the rail lines between Denmark Hill & Sevenoaks, and West Dulwich & Orpington

Satisfaction at the station where they boarded

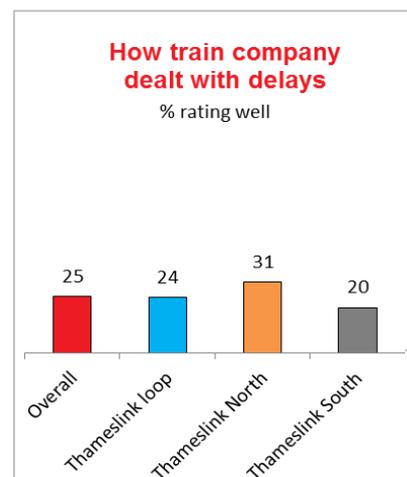

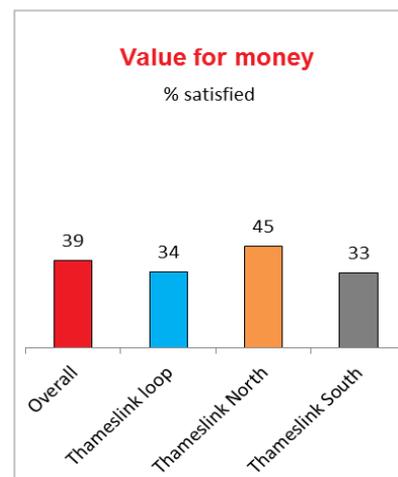

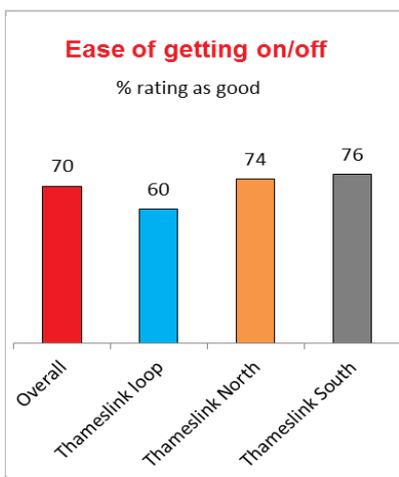

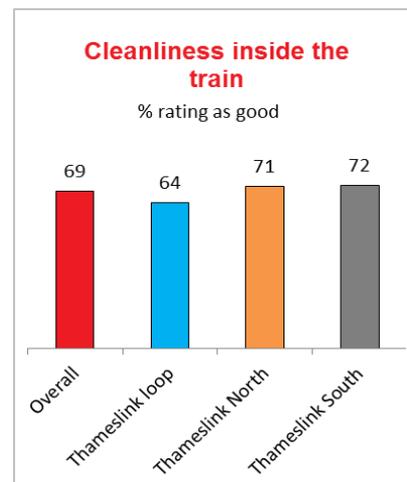

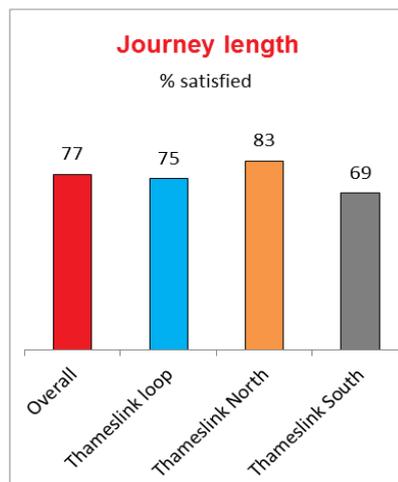

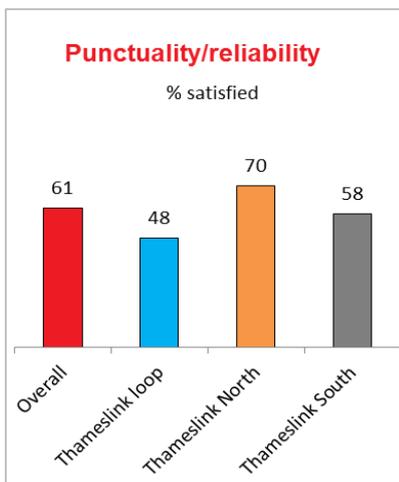

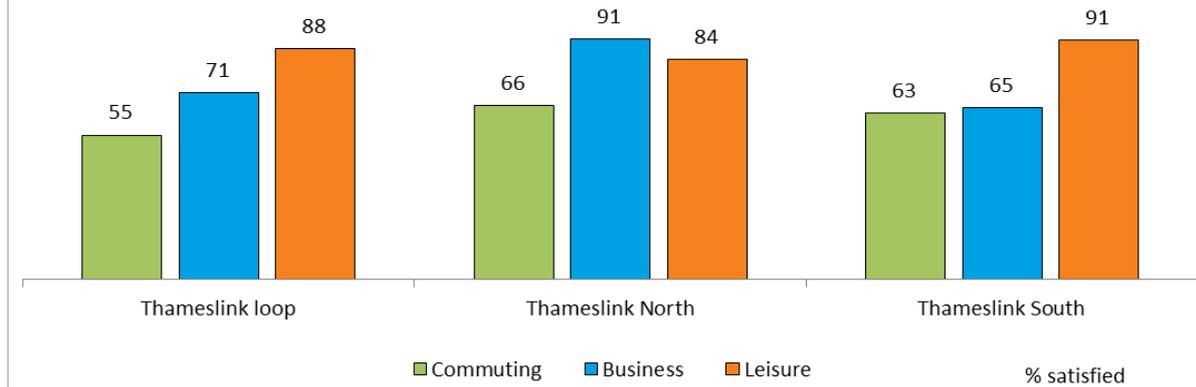

Satisfaction on the train

Satisfaction - in a bit more depth (Autumn 2015)

Overall satisfaction - by route and journey type

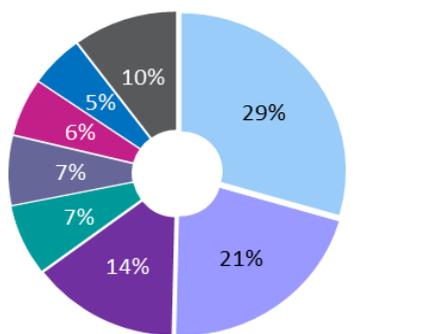

What impacts on satisfaction and dissatisfaction?

Not all factors will have equal importance - some things will have a much bigger influence on whether a passenger is satisfied with the overall journey than others.

The charts below show which station and train factors are statistically most important in determining overall passenger satisfaction and dissatisfaction.

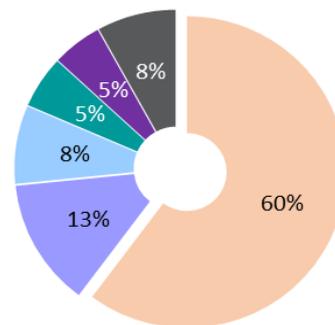

The analysis looks at which factors correlate most highly with overall journey satisfaction. For example, if those satisfied with punctuality are much more likely to be satisfied overall, then punctuality is likely to have a bigger impact on overall satisfaction. The higher the percentage figure below, the greater the influence on overall journey satisfaction.

What has the biggest impact on overall satisfaction?

- Punctuality/reliability
- Journey length
- Cleanliness inside the train
- Ease of getting on/off
- Sufficient room to sit/stand
- Provision of information about train times/platforms
- The frequency of the trains on that route
- Others

What has the biggest impact on overall dissatisfaction?

- How train company dealt with delays
- Journey length
- Punctuality/reliability
- Ease of getting on/off
- Cleanliness inside the train
- Others
