

# Rail Passenger Satisfaction at a glance: Govia Thameslink - Spring 2015

Transport Focus is the independent transport-user watchdog. Our mission is to get the best deal for transport-users. In spring and autumn we carry out the National Rail Passenger Survey (NRPS), a network-wide picture of passengers' satisfaction with rail travel for Great Britain.

We ask passengers for their views of the specific journey they are making at the point they are surveyed, both in general and on a number of specific areas regarding the station, the train and the service received.

For Govia Thameslink this time we spoke to 1725 passengers. This page shows the headlines. Page 2 shows satisfaction with individual aspects of the station and the train. Page 3 looks at some factors in a bit more depth. The last page shows which factors have the biggest effect on satisfaction and dissatisfaction.

## How routes are defined

**Great Northern:** Journeys on the Peterborough/King's Lynn - London King's Cross/Moorgate route

**Thameslink Loop:** Journeys starting from stations on the route via Wimbledon, including stations as far north as City Thameslink

**Thameslink North:** Journeys starting from stations on the route between Farringdon and Bedford

**Thameslink South:** Journeys starting from stations between London Bridge and Brighton. Also journeys starting on the rail lines between Denmark Hill & Sevenoaks, and West Dulwich & Orpington (joint service with Southeastern)

## Satisfaction at the station where they boarded

## Satisfaction on the train

## Satisfaction - in a bit more depth (Spring 2015)

### Overall satisfaction - by route and journey type

#### Punctuality/reliability

#### Value for money

#### How well train company deals with delays

#### Ease of getting on / off

#### Journey length

#### Cleanliness inside the train

## What impacts on satisfaction and dissatisfaction?

Not all the factors shown above will have equal importance - some things will have a much bigger influence on whether a passenger is satisfied with the overall journey than others.

The charts below show which station and train factors are statistically most important in determining overall passenger satisfaction and dissatisfaction.

The analysis looks at which factors correlate most highly with overall journey satisfaction. For example, if those satisfied with punctuality are much more likely to be satisfied overall, then punctuality is likely to have a bigger impact on overall satisfaction - the higher the percentage figure below the greater the influence on overall journey satisfaction.

### What has the biggest impact on overall satisfaction?

### What has the biggest impact on overall dissatisfaction?

This is just a quick look at passenger satisfaction.
