

# Rail Passenger Satisfaction at a glance: ScotRail - Spring 2015

Transport Focus is the independent transport-user watchdog. Our mission is to get the best deal for transport-users. In spring and autumn we carry out the National Rail Passenger Survey (NRPS), a network-wide picture of passengers' satisfaction with rail travel for Great Britain.

We ask passengers for their views of the specific journey they are making at the point they are surveyed, both in general and on a number of specific areas regarding the station, the train and the service received.

For ScotRail this time we spoke to 1156 passengers. This page shows the headlines. Page 2 shows satisfaction with individual aspects of the station and the train. Page 3 looks at some factors in a bit more depth. The last page shows which factors have the biggest effect on satisfaction and dissatisfaction.

## Overall satisfaction with the journey

## Overall satisfaction by journey purpose

## Overall satisfaction by route

## How routes are defined

**Interurban:** Journeys on longer-distance rail lines between urban areas

**Rural:** Journeys on predominantly rural rail lines

**Strathclyde:** Journeys on local rail lines within Strathclyde

**Urban:** Shorter-distance journeys on predominantly urban rail lines, within urban areas that are not covered by the Strathclyde route

## Satisfaction at the station where they boarded

## Satisfaction on the train

## Satisfaction - in a bit more depth (Spring 2015)

### Overall satisfaction - by route and journey type

#### Comfort of the seating area

% satisfied

#### Ease of being able to get on/off

% rating as good

#### Value for money

% satisfied

#### Punctuality/reliability

% satisfied

#### Cleanliness inside the train

% rating as good

#### How well train company dealt with delays

% satisfied

## What impacts on satisfaction and dissatisfaction?

Not all the factors shown above will have equal importance - some things will have a much bigger influence on whether a passenger is satisfied with the overall journey than others.

The charts below show which station and train factors are statistically most important in determining overall passenger satisfaction and dissatisfaction.

The analysis looks at which factors correlate most highly with overall journey satisfaction. For example, if those satisfied with punctuality are much more likely to be satisfied overall, then punctuality is likely to have a bigger impact on overall satisfaction - the higher the percentage figure below the greater the influence on overall journey satisfaction.

### What has the biggest impact on overall satisfaction?

- Comfort of the seating area
- Ease of being able to get on/off
- Cleanliness inside the train
- Punctuality/reliability
- Upkeep/repair of station buildings/platforms
- Frequency of trains on the route
- Journey length
- Others

### What has the biggest impact on overall dissatisfaction?

- How train company dealt with delays
- Ease of being able to get on/off
- Cleanliness inside the train
- Punctuality/reliability
- Upkeep/repair of station buildings/platforms
- Availability of staff on the train
- Others

This is just a quick look at passenger satisfaction.
