

# Rail Passenger Satisfaction at a glance: Chiltern Railways - Spring 2015

Transport Focus is the independent transport-user watchdog. Our mission is to get the best deal for transport-users. In spring and autumn we carry out the National Rail Passenger Survey (NRPS), a network-wide picture of passengers' satisfaction with rail travel for Great Britain.

We ask passengers for their views of the specific journey they are making at the point they are surveyed, both in general and on a number of specific areas regarding the station, the train and the service received.

For Chiltern Railways this time we spoke to 1089 passengers. This page shows the headlines. Page 2 shows satisfaction with individual aspects of the station and the train. Page 3 looks at some factors in a bit more depth. The last page shows which factors have the biggest effect on satisfaction and dissatisfaction.

**How routes are defined**

**North:** journeys starting from Bicester North station and stations further north.

**South:** journeys starting from stations south of Bicester North (including services on routes to/from Aylesbury)

## Satisfaction at the station where they boarded

## Satisfaction on the train

## Satisfaction - in a bit more depth (Spring 2015)

## What impacts on satisfaction and dissatisfaction?

Not all the factors shown above will have equal importance - some things will have a much bigger influence on whether a passenger is satisfied with the overall journey than others.

The charts below show which station and train factors are statistically most important in determining overall passenger satisfaction and dissatisfaction.

The analysis looks at which factors correlate most highly with overall journey satisfaction. For example, if those satisfied with punctuality are much more likely to be satisfied overall, then punctuality is likely to have a bigger impact on overall satisfaction - the higher the percentage figure below the greater the influence on overall journey satisfaction.

### What has the biggest impact on overall satisfaction?

- Punctuality/reliability
- Cleanliness inside the train
- Ease of being able to get on/off
- Frequency of trains on the route
- Upkeep and repair of the train
- Provision of information about train times/platforms
- Others

### What has the biggest impact on overall dissatisfaction?

- How train company dealt with delays
- Comfort of the seating area
- How request to station staff was handled
- Ease of being able to get on/off
- Sufficient room to sit/stand
- Punctuality/reliability
- Provision of information about train times/platforms
- Others

This is just a quick look at passenger satisfaction.
