# Contents

## 1 Introduction

- 1.1 Methodology 2
- 1.2 Issues affecting fieldwork 3

## 2 Key results

- 2.1 Overall satisfaction and station factor results for c2c 5
- 2.2 Train factor results for c2c 6
- 2.3 Overall satisfaction and station factor results for London and South East 8
- 2.4 Train factor results for London and South East 9
- 2.5 c2c performance versus London and South East 11
- 2.6 Building block/route data for c2c 13

## 3 Passenger satisfaction trend charts

- 3.1 Trend charts of all passenger satisfaction results for c2c 15

## 4 Managed versus non-managed stations

- 4.1 Station factor results for c2c 26
- 4.2 Network Rail categorisation for c2c 27

## 5 Peak/off-peak satisfaction

- 5.1 Peak/off peak satisfaction for c2c 28
- 5.2 Peak/off peak satisfaction for London and South East 30

## 6 Sample profile

- 6.1 Weighted sample profile for c2c 32
- 6.2 Weighted sample profile for London and South East 33
- 6.3 Station sample sizes for c2c 34
- 6.4 Weighted sample composition for all TOCs 35
- 6.5 Unweighted sample composition for all TOCs 36

## 7 Technical appendix

- 7.1 Standard reports produced for NPS 37
- 7.2 Rail sectors 38

Questionnaires are normally handed out at stations to customers about to board a train.

A reply paid envelope is provided for returning questionnaires.

Each Train Operating Company (TOC) is sampled separately. Interviewers are given a number of questionnaires to hand out at a station.

At Gatwick and Heathrow Airports and for some shifts at certain London termini, questionnaires are handed out to passengers of a specific TOC. From Autumn 2003 onwards, at all other stations, questionnaires are handed out to passengers of any TOC (in the past, these were also targeted).

The number of questionnaires handed out will depend on:

- the size of station
- time of day
- length of shift

TOC data is compiled to provide a national sample.

Fieldwork is carried out each Spring (February/March) and Autumn (September/October). Up to Spring 2003, fieldwork took place over 3 weeks.

In Autumn 2003, the fieldwork was extended to an 11 week period, from 26 August to 9 November, to provide a better representation of journeys.

Quotas for returned questionnaires are set overall and by weekday/weekend, journey purpose and station size.

All data for a TOC in this Report is weighted up to the number of passenger journeys annually on the TOC and the profile of those journeys by:

- weekday/weekend
- journey purpose (Commuter, Business, Leisure)
- station size (this profile is applied for each TOC building block)

The data for number of journeys and profiles by these variables was generated from ORR data (2010).

The stations for each TOC were stratified by number of passengers and a number of stations in each size stratum is sampled.

This sample design and weighting ensures that data is representative of all passenger journeys made on each TOC.

National results are constructed by combining data for all TOCs together, weighting by number of journeys.

From Autumn 2007 standard region definitions have been used replacing older rail regions. Analysis for the old regions is available on request.

For more details of NPS methodology, visit [www.passengerfocus.org.uk](http://www.passengerfocus.org.uk)

## Autumn 2011 (Wave 25)

Wave 25 fieldwork (Main and Boost) was undertaken between 1st September 2011 and 18th November 2011. Top up shifts were run within the last 3 weeks of the fieldwork period.

Delayed fieldwork on a separate rail industry project led to a smaller number of NPS shifts than normal at London Euston during the first couple of weeks of fieldwork, with others planned being moved to later in the fieldwork period.

As with previous waves, planned engineering works meant that some shifts were rescheduled. As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

## Spring 2011 (Wave 24)

Wave 24 fieldwork (Main and Boost) was undertaken between 31st January 2011 and 15th April 2011. Top up interviews were run within the last 3 weeks of the fieldwork period.

Closure of the Wrexham and Shropshire Franchise prior to the start of fieldwork meant that no shifts were conducted on train or at station for this TOC.

Due to strike action with Arriva Trains Wales a small number of weekend shifts had to be rescheduled for later on in the fieldwork period. Other than this strike action, and clashes with Virgin Trains' own fieldwork and a small amount of engineering work mainly affecting London Overground shifts there was little disruption to the field schedule. Whenever possible the shifts went ahead as planned if there were still train services

The results achieved by London Midland are likely to have been affected by an industrial dispute which resulted in the cancellation of a significant number of trains through the full survey period.

One fieldworker was commended on his behaviour by First TransPennine Express after saving the life of a young female passenger by preventing her from falling onto the track.

## Autumn 2010 (Wave 23)

Fieldwork (Main and Boost) was undertaken between 2nd September 2010 and 15th November 2010. Top up shifts were run between 14th October and the 26th November 2010.

Planned engineering works meant that some shifts were rescheduled. As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

Engineering works particularly affected shifts scheduled to be conducted on weekends both on train and at stations run by London Overground and Wrexham and Shropshire respectively. All shifts were rescheduled and conducted on the weekends where possible.

Due to shortfall on returns on certain TOCs the fieldwork period was extended from the 15th of November to the 26th November.

Other than the Papal visit, and the Conservative Party conference there were no other events that caused major disruptions to the fieldwork schedule.

## Spring 2010 (Wave 22)

Fieldwork was undertaken between 31 January 2009 and 27 March 2009. Top up shifts were run between 28 March and 9 April 2009. The main fieldwork period was similar to previous years, but the top-up period was slightly extended because of problems encountered earlier in the fieldwork period.

Extreme weather - in particular, heavy snow during the 1st week of February - caused a lot of disruption to the fieldwork schedule. Over 50% of all shifts originally scheduled for 2-6 February had to be postponed until later in the fieldwork period.

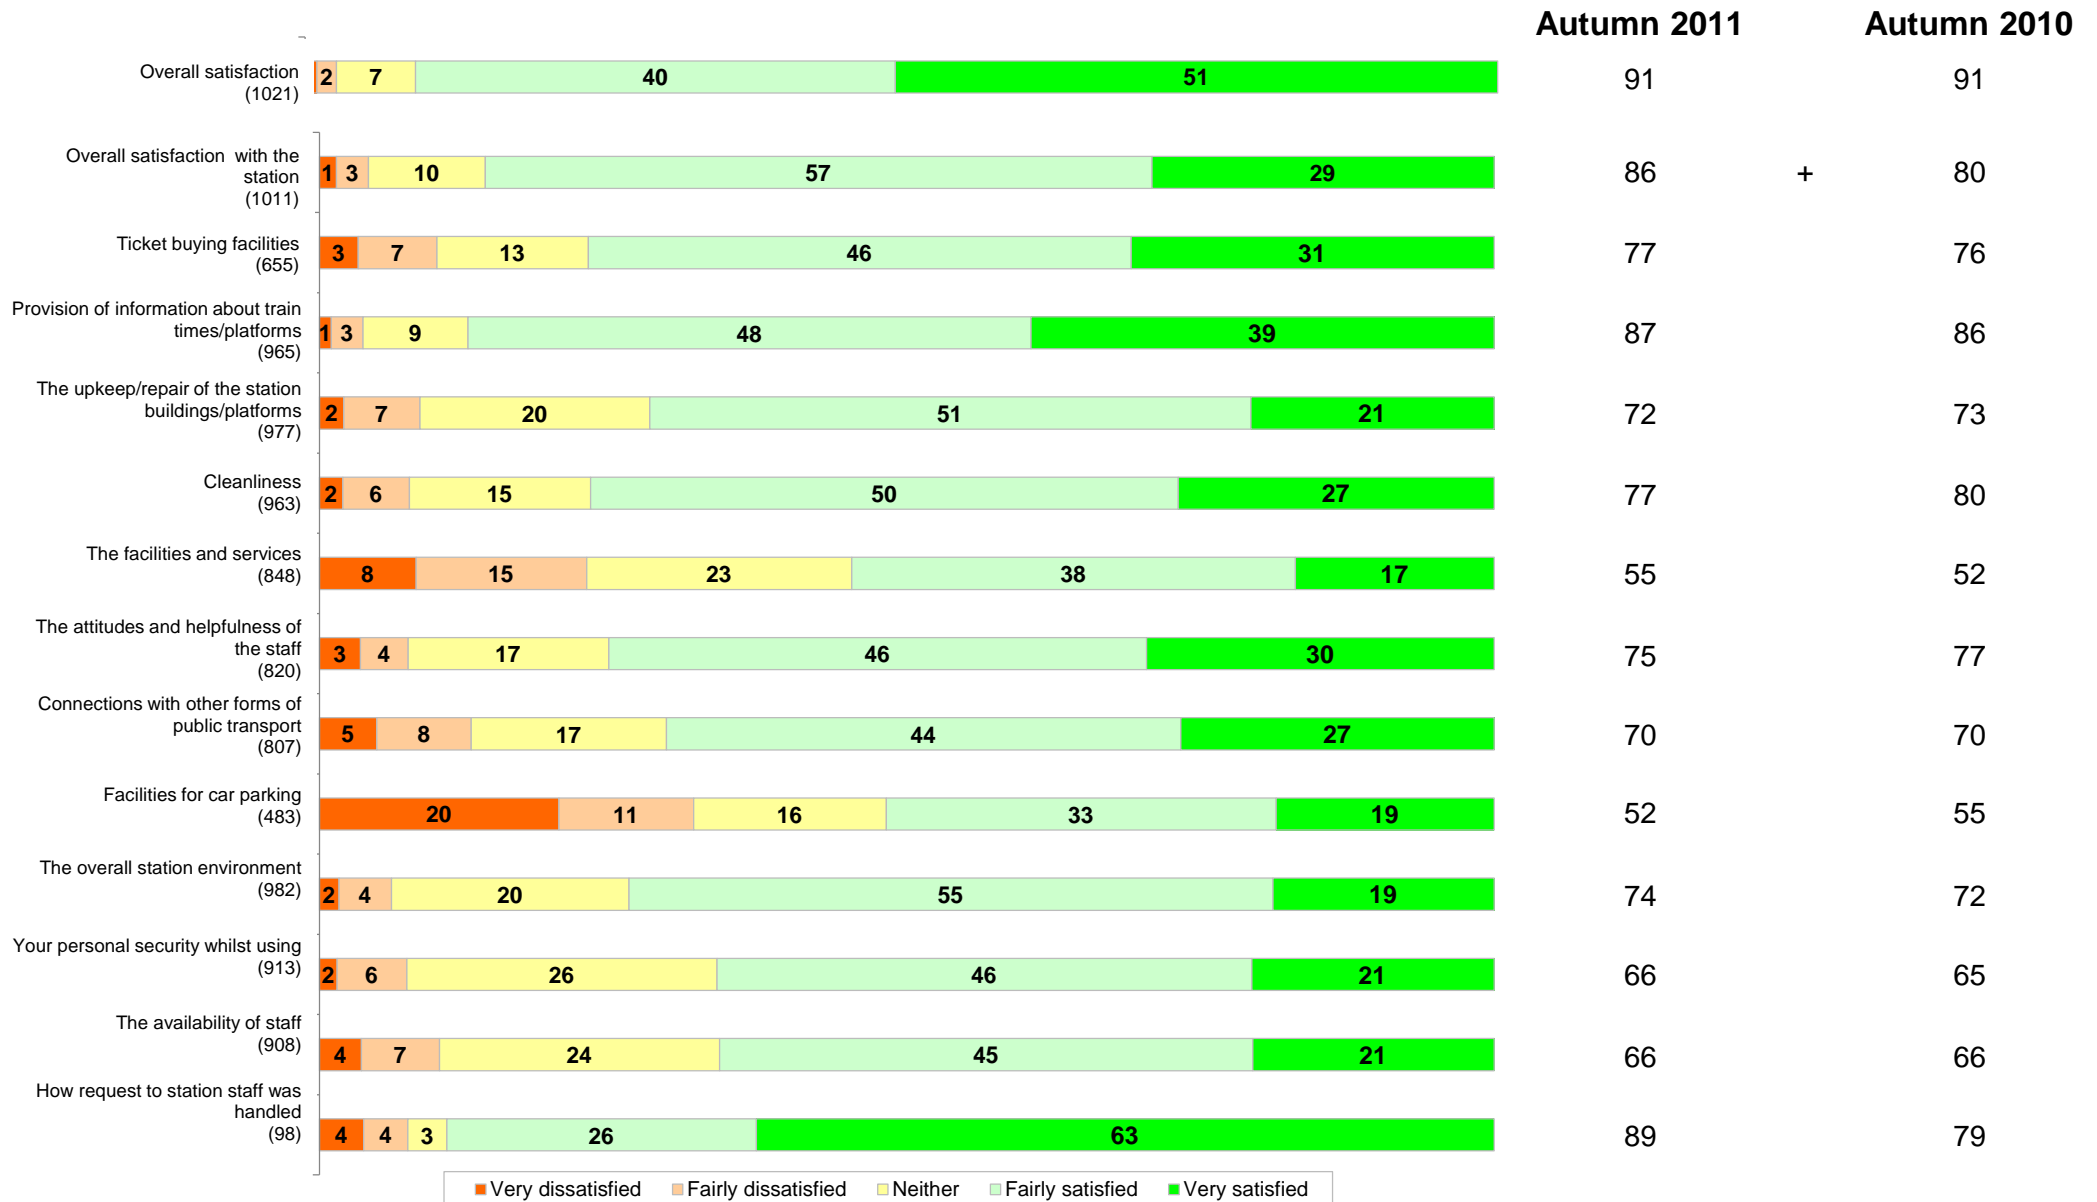

As always, planned engineering works meant that some shifts were rescheduled. As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

Over-running engineering work meant that further shifts had to be rescheduled during the course of the fieldwork, but this was not a great problem.

A few shifts were rescheduled to avoid clashing with Six Nations rugby matches, but sporting events did not cause much disruption to the original schedule.

## The following reports are produced each wave:

|                                      |   |
|--------------------------------------|---|
| Summary report                       | Summary tables for all TOCs (including comparison with one year previously), trend tables for last 10 waves by TOC, trend charts for the main NPS factors, peak vs off-peak analysis for LSE TOCs.  |
| TOC reports                          | Tables and graphs showing results for TOC (including comparisons with one year previously and with relevant sector), trend charts for all factors (including sector and benchmark (if relevant) comparisons), summary profile of passengers surveyed, station sample sizes for TOC and sample composition & weighting.  |
| Stations report                      | Percentage of passengers satisfied by each main factor for last 10 waves for all stations covered by NPS during that time period.   |
| Consultees report                    | Summary national trend charts for all main factors, trend charts by age/journey purpose & gender, summary results for leisure/business passengers & commuters, one page for each factor showing national trend and results for all TOCs, Government Office Region charts for each factor and simple tables for some questions that are not included in the main NPS report. |
| Best in class report                 | Trend tables showing results for all main factors for all TOCs and building blocks for the last 10 waves.   |
| Multivariate report                  | Multivariate analysis showing drivers of satisfaction and dissatisfaction nationally, by sector and by TOC for latest two NPS waves combined.   |
| Personal security at stations report | Percentage of passengers satisfied and dissatisfied with personal security at all stations that were included in the NPS for the last 10 survey waves.  |
| Rankings report                      | Results since wave 10 showing satisfaction score for each TOC by factor, significant changes since one year earlier, national rank and rank in TOC type.  |
| Virtual TOC reports                  | NPS reports for TOCs that used to exist or that are planned to exist in the future (exactly the same format as TOC reports).  |
| Building block report                | Summary results showing satisfaction for all building blocks for all main NPS factors.  |
| PTE reports                          | NPS reports for all PTEs (exactly the same format as TOC reports).  |
| Demographic reports                  | Simple reports for all TOCs showing demographic profile (and answers to other questions).   |
| Tables report                        | Quite detailed tables for all TOCs showing results for the majority of NPS questions by gender, age, journey purpose, time of week and whether they were a frequent traveller or not.   |

## Sector definitions

The sector results used in this report contain the following TOCs (non-franchised operators are excluded):

| London and South East Operators | Long Distance Operators    | Regional Operators  |
|---------------------------------|----------------------------|---------------------|
| c2c                             | CrossCountry               | Arriva Trains Wales |
| Chiltern Railways               | East Coast                 | Merseyrail          |
| First Capital Connect           | East Midlands Trains       | Northern Rail       |
| First Great Western             | First TransPennine Express | ScotRail            |
| London Midland                  | Virgin Trains              |                     |
| London Overground               |                            |                     |
| National Express East Anglia    |                            |                     |
| Southeastern                    |                            |                     |
| Southern                        |                            |                     |
| South West Trains               |                            |                     |
