Methodology

Passenger Focus undertook a survey of bus passenger satisfaction in the following areas in November 2009:

PTE

South Yorkshire
West Yorkshire
Merseytravel
Greater Manchester

Urban

Stoke-on-Trent
Brighton
Medway Kent
Plymouth
Swindon

County

Shropshire
Cumbria
Cornwall
Hampshire
Cambridgeshire

The survey used a self-completion questionnaire, which was handed to passengers onboard the bus during their journey. A copy of the questionnaire is included in the appendices to this report.

The survey was administered on a pre-selected sample of bus services in each area. The sample of bus services was designed to be broadly representative of operator market share and service frequency.

A database of local bus services was created for each area and stratified by operator and service frequency. A sample of services was then selected using a Probability Proportional to Size approach. The results for each geographical area were then weighted to accurately reflect the market share of operators in the area. Results were also weighted according to the proportion of journeys made by concessionary passengers, based on data provided by the TAS partnership.

This report presents the survey results for STAGECOACH and compares them to the results for all of Merseytravel and for all PTEs surveyed.
