SECTION 4	Individual bus timetables for services which would be affected by our proposals. 54

Section I

What are we aiming to do and what we have done so far

In this section we outline:

- (i) What we have been trying to achieve.
- (ii) What we have achieved to date.
- (iii) The timescales for this consultation on our proposals.

I Overview

- I.1 We are seeking your views on our proposal for a proposed new network of supported bus services to start from 1 April 2017.
- I.2 Councils nationally are facing unprecedented pressures on their funding. East Riding of Yorkshire Council has had to save £110 million since 2010 and we have another £60 million to find over the next four years.
- I.3 Given those financial challenges all East Riding Council services are being reviewed to ensure that they still meet the needs of East Riding residents.
- I.4 Bus services in the East Riding tend to be provided commercially by operators. As a council we currently step in to provide 90 supported bus contracts, costing £1.3 million annually to provide. It is important to note that these 90 contracts are not 90 full bus services, our supported bus contracts can be for one or more journeys on a service; for evening journeys on a service; weekend journeys on a service or a full service.
- I.5 To ascertain whether or not these routes are still meeting the needs of the communities they serve we decided to undertake a detailed Transport Needs Assessment. We did this with the direct assistance of 72 Parish Transport Champions who volunteered to undertake transport needs assessments, with our support, in their communities.
- I.6 All 168 East Riding Town and Parish councils were asked to nominate a Parish Transport Champion and Champions were nominated by their local parishes. Questionnaires were prepared by the Champions with our support and distributed in the local community before being returned to us for analysis.
- I.7 In meeting with the Parish Transport Champions we were realistic from the outset in saying that we could not give a cast iron guarantee to meet all transport needs which they identified but that we wanted information on current needs to have the best possible chance of meeting as many of them as possible.
- I.8 This Transport Needs Assessment Process ran from September 2015 until March 2016 and we received 3,398 responses.
- I.9 These responses have been analysed and reviewed to assess their relevance to the council's statutory duties in regard to securing the provision of appropriate bus services and have been used to inform the proposal which is outlined in this document.
- I.10 Our proposal suggests that of the 90 current contracts, 59 contracts would cease, 18 of which are for full services, 41 of which are for individual journeys, or for evening or Sunday journeys. However mitigating alternative transport options are offered for the loss of these 59 contracts which include either existing or proposed demand responsive transport options, or by travelling on a different bus or at a different time.

- I.11 We are now seeking your views on our proposal, which can be given either via the survey online at:

www.eastriding.gov.uk/haveyoursay

Or alternatively we can email you a copy of the questionnaire if you prefer – **please email us at:**

BusConsultation2016@eastriding.gov.uk

You can also telephone our helpline:

(01482) 395008

Or you can give us your views in person at one of the drop in sessions that will take place during the consultation period. Venues, dates and times for these will be detailed on the 'Have Your Say' page of the council website in the consultation pack, or call the helpline for further details.

- I.12 The consultation will run for 8 weeks until 28 August 2016. Once we have received all of your comments and views we will then analyse and take due account of these before making a decision.

2 Why has the council started this process?

- 2.1** Councils across England have faced unprecedented financial pressures since 2010. East Riding Council has had to find £110 million worth of savings since 2010 and in the next four years must find a further £60 million.
- 2.2** Further information on the financial pressures facing East Riding Council can be found at:
www.eastriding.gov.uk/councilbusinessplan
- 2.3** Bus Services in the East Riding have in many cases been operating for decades. Generally they are run on a commercial basis by bus operators but East Riding Council has stepped in to provide 90 supported bus contracts, currently costing about £1.3 million per year. These supported bus contracts are for either one or more journeys on a bus service, for evening journeys on a service or Sunday journeys on a service. In deciding when to step in and meet transport needs our criteria has traditionally been to prioritise work journeys, followed by shopping and then evening and Sunday provision, amongst other considerations. However analysis of the results of the needs assessment process and subsequent analysis of existing supported services against robust weighting criteria indicate that this themed approach may not lead to a balanced and proportionate outcome for the future of the bus network.
- 2.4** Given the financial pressures facing the council we have to be able to show that the services which are being supported meet strategic transport needs of the communities which they serve.
- 2.5** In addition to meeting a strategic transport need, as a council we have a number of Statutory Duties in regards to public transport. These are outlined in the following Acts of Parliament:
- **Section 63(1)(a) of the 1985 Transport Act**
 - **Sections 63(6) and (7) and section 9A(5)(6) of the 1985 Acts**
 - **Section 63 (8) of the 1985 Acts**
 - **Sections 89-92 of the 1985 Acts**
 - **The 2000 Transport Act**
 - **Section 3 (2) of the Climate Change and Sustainable Energy Act 2006**
 - **Section 149 of the Equality Act 2010**
- 2.6** Full details of these Acts can be found at:
www.legislation.gov.uk
- 2.7** To discharge our duties we therefore need to establish what the level of currently unmet transport need is within the East Riding of Yorkshire, with particular reference to: the needs of the elderly and disabled; our policies as outlined in the Local Transport Plan 2015-29; due regard to climate change; and our duty under Section 149 of the Equality Act 2010. We then need to decide on the most appropriate ways in which to meet that need, given available resources.

3 What we have achieved to date

3.1 The council has supported a bus network that integrates effectively with other travel options such as rail, cycle, walking and demand responsive transport, and links into neighbouring authority areas. Analysis of accessibility (through accessibility planning) has informed the development of the established bus network we have today. While the council collects a considerable amount of data on bus passenger loadings this does not necessarily show whether or not transport needs are being met. On a supported bus service this may mean that a service has a very low number of passengers because it is running at the wrong time and/or route to meet residents unmet transport needs. In addition, it is important to obtain the views of local people who can determine a truly up to date picture of unmet local transport needs through their town, parish and ward representatives. To assist this process, the council developed and launched a Parish Transport Toolkit in 2013, as part of its work to develop community based transport initiatives. This is a simple step-by-step guide for communities to work through identifying what their unmet transport needs might be and how best to try and meet them. It was further streamlined and updated in 2015.

3.2 To start the process for the Transport Needs Assessments meetings were arranged to engage with parishes in six varied locations across the East Riding. A deliberate decision was made to hold evening meetings, starting at 18:30 to give town and parish councillors the best possible chance of attending. Meetings were held as follows:

5 October 2015	Goole Leisure Centre
6 October 2015	Skipsea Village Hall
7 October 2015	The Shores, Withernsea
8 October 2015	Pocklington Arts Centre, Market Place, Pocklington
12 October 2015	Hexagon Centre, Coltman Avenue, Beverley
14 October 2015	The Spa, Bridlington

3.3 A letter was then sent to the parish clerks of all 168 local councils in the East Riding asking them to nominate a representative to attend whichever of the six meetings would be most convenient for them. The meetings were chaired by a representative of a local transport charity City of Hull and Humber Environment Forum (CHEF). Invitation letters were also sent to stakeholder groups who represent residents from the protected groups – Choices and Rights; Future Years; HERIB and PAGER.

3.4 The aims of these meetings was to:

- (i) Explain the wide variety of different ways in which transport needs can be met;
- (ii) Raise awareness of what transport services parishes currently have and increase patronage;
- (iii) Explain the process through which we intended to review bus services and outline the approximate timescales for this;
- (iv) Explain that we could not give a guarantee to be able to fulfill all unmet transport needs identified but that we were seeking parish support to ensure that we had the best possible information on this to try and meet as many needs as possible;
- (v) Explain that we could only work into the proposal issues which were clearly unmet strategic transport needs of the community;
- (vi) Secure the nomination of a Parish Transport Champion.

3.5 The meetings were very successful attracting 98 delegates, representing 60 parishes and securing nomination of 72 Champions. Further approaches were made by email to those parishes who did not attend.

3.6 To further raise awareness of the Transport Needs Assessments 2000 posters were produced. East Yorkshire Motor Services agreed to display some and they were also displayed on approximately 850 bus stops within the East Riding.

3.7 To ensure that Protected Groups in the East Riding were made aware of the process at the Disability Advisory and Monitoring Group (DAMG) meeting on 7 December 2015.

3.8 The process was also publicised in East Riding Parish News, Hedon Blog, Roos Rooster; Holderness Heartbeat, other individual parish newsletters and websites and other local papers.

3.9 Nominations came in for Parish Transport Champions up until Christmas 2015, culminating in 72 being nominated. It was felt important that they receive appropriate training in carrying out a Transport Needs Assessment and two training sessions was therefore undertaken on 9 November 2015 at The Spa in Bridlington and on 10 November 2015 at County Hall, Beverley. A job description for the role was circulated at both sessions.

3.10 From the training session an email was sent to all Champions outlining what support was available to them. In deciding on their survey questions, efforts were made to encourage champions to use the model survey outlined in the Parish Transport Toolkit but where champions wanted to ask more locally focused questions these were accommodated to ensure that the process remained locally driven. To assist in offering help, the East Riding was split into five areas and each area was allocated a dedicated officer for support. These officers then attended meetings to offer technical transport help, and helped organise things such as printing of the survey forms where this was requested etc.

3.11 We had initially envisaged the Transport Needs Assessment Process ending in December 2015 but as a result of the success in securing Parish Transport Champions the deadline for Transport Needs Assessments was extended until 4 March 2016. In total 2160 households responded, and 3398 individual responses were collected through this process.

3.12 A drop in session was organised for Parish Transport Champions on 20 May 2016 to discuss their needs assessment analysis summaries (these had been sent to them by email) and to give them a final opportunity to make comments. They were also shown summaries of key strategic issues for the wider area in which they were supported and encouraged to comment on these as well as individual parish issues. This event was successful attracting 27 attendees over a two hour period.

3.13 In total 1,042 unmet transport needs were expressed by those responding to the surveys. Where ten or more people identified a similar need these (597 needs) were investigated, and their strategic significance assessed, as part of the network review process. The remaining 445 needs will be considered on an case-by-case basis and our response to them discussed with individual Parish Transport Champions. Following incorporation of final comments from the Parish Transport Champions a completed summary of strategic issues was produced. This summary was then used as a component of the evidence base required to construct the proposal for the future provision of bus services.

3.14 This proposal therefore has at its core an aim for the council to continue to meet, in accordance with its statutory duties, and as far as its resources and funding allows, those transport needs for which there is no potential alternative provision. In developing it a number of assessment criteria were utilised to ensure public funding is spent in line with best value principles having regard to the combination of economy, efficiency and effectiveness. Existing supported bus services were scored against the following criteria:

- (i) Annual number of passengers
- (ii) Average passengers per journey
- (iii) Subsidy per passenger
- (iv) Category of Journey
- (v) Proximity of Potential Alternative Service
- (vi) Environmental impact of any changes to the bus service

3.15 From this 31 supported bus contracts were identified as potentially meeting strategic needs of the local communities they serve. In the case of a further 59 supported bus contracts whilst they clearly carry some passengers and meet some need, on the basis of our assessment criteria and having regard to the funding currently available, the council has decided it can no longer offer subsidy to them.

3.16 In the case of the bulk of those services which will no longer be supported there is the opportunity for travel on an alternative service. A demand responsive alternative can be developed for 13 services. Alternatives need further investigation for seven services.

3.17 Where services will no longer be supported our proposal offers the following actions to mitigate the potential impact of the service withdrawal on our bus users:

- (i) The new categories of assessment for route support will, as far as reasonable, prioritise support to those services where there is no alternative service;
- (ii) Support to local parishes to find alternative ways of meeting transport needs and then sourcing alternative sources of funding to pay for this will continue to be available until at least 31 March 2017;
- (iii) We will continue to work with the Parish Transport Champions and seek funding for the establishment of a Community Bus Service Partnership (CBSP) to support their ongoing work. This will include potential work on bus-rail integration;
- (iv) We will explore other sources of funding with bus and community transport operators to allow them to provide services themselves. A key potential source of this will be our work through the Department for Transport's Total Transport initiative and in particular work to secure a different model for the delivery of non-emergency patient transport services;
- (v) We will develop and introduce innovative ways of raising awareness of bus and community transport services (e.g. through social media);
- (vi) We will provide journey planning advice for bus users where the future bus service provision has adversely affected them to the degree no alternative is available.

3.18 The proposal reflects our statutory duties in the following ways:

- (i) We have secured the support of 72 East Riding parishes and 59 have carried out a detailed local transport needs assessment. From these we have identified 36 key strategic needs of local communities and offered potential ways forward for addressing them in the proposal;
- (ii) In carrying out these needs assessments parishes have specifically been asked to consider the needs of the elderly and disabled;
- (iii) A proposal has been developed which as far as possible continues support for services where there is no alternative or explores the potential for a demand responsive service option, thus helping to mitigate as far as possible the effects of any changes;
- (iv) Further mitigation for the effects of these proposals is offered through the provision of officer support to parishes to enable them to develop locally owned and funded transport solutions;
- (v) Personal journey planning advice will also be offered to bus users;
- (vi) Total Transport work will include work to establish a CBSP and work with bus operators and community transport groups to identify and secure alternative sources of funding to allow them to offer more local services;
- (vii) Our duties in regards to promoting the availability of public transport information will be met through new initiatives including the use of social media to promote community transport;
- (viii) The proposal does not compromise our stated aim in the Local Transport Plan to work with operators to provide a sustainable bus network;

- (ix) In developing the proposal we have included the use of an environmental impact analysis in order to fulfil our duties in respect of the Climate Change and Sustainable Energy Act 2006, and have had due regard to the council's Local Transport Plan Bus Strategy and Strategic Environmental Assessment (2015);
- (x) Our proposal seeks to offer equality of access for all and so does not compromise our duties in regards to the Equality Act 2010.

4 What happens next?

4.1 We need your views! You can share these with us in the following ways:

- (i) By filling out our questionnaire at www.eastriding.gov.uk/haveyoursay
- (ii) We can email you a copy of the questionnaire if you prefer – please email us at: BusConsultation2016@eastriding.gov.uk
- (iii) By attending one of our drop-in sessions where you can meet members of the Transportation Services Team and discuss your views.
Venues, dates and times for these will be detailed on the 'Have Your Say' page of the council website in the consultation pack, or call the helpline for further details.
- (iv) By telephoning the helpline: **(01482) 395008**

4.2 Our consultation will last for eight weeks and at the end of the process we will analyse all of your views and have due regard to them when we make a decision.

Section 2

The Transport Needs Assessments - what have they shown us?

In this section we outline a summary of the results of the Transport Needs Assessments and offer comments on the key strategic needs identified.

Parish Champions Needs Assessments

The work of our Parish Champions and their transport needs assessments have identified some “unmet” transport needs within their areas. The analysis below looks at identified needs for peak/off peak/evening travel where there were 10 or more responses.

The analysis has looked at how that unmet need, is:

- A** Met by the current commercial/supported bus network;
- B** Not met by the current commercial/supported bus network;
- C** Currently met by the supported bus network, but will be adversely affected by the council's proposed changes.

We defined:

Peak:	Pre 0900, 1600 to 1800
Off Peak:	0901 to 1559
Evening:	After 1801

Met by the Current Commercial/Supported Bus Network

We would take no further action in relation to these issues, unless specified in individual responses.

	Need Identified	East Riding's Response to the Identified Need
1	Skerne and Wansford to Driffeld, travelling off peak (15 responses)	Off peak provision is currently funded by the council and these contracts would be unaffected by the proposed changes.
2	Cherry Burton to Beverley, travelling off peak (10 responses)	Off peak provision is a mix of commercial and supported services providing a very limited service and these contracts would be unaffected by the proposed changes.
3	Swanland to Hull, travelling off peak (24 responses)	Hourly service provided by EYMS (service 153). Sunday service withdrawn from 01/04/2017.
4	Swanland to Hessle, travelling off peak (11 responses)	Off peak provision exists, but is limited Monday to Friday, with a slightly more frequent service on Saturdays.
5	Kirkella and West Ella to Hull, travelling off peak (11 responses)	Better than hourly service provided by EYMS (services 151 and 153). Sunday service withdrawn from 01/04/2017.
6	Willerby to Beverley, travelling off peak (20 responses)	Off peak provision provided by EYMS (services 180 and X80).
7	Full Sutton and Skirpenbeck to Pocklington, travelling off peak (12 responses)	Off peak provision for Full Sutton provided by EYMS (service 747) and this contract would be unaffected by the proposed changes. There is currently no bus service to Skirpenbeck, we will explore the potential for a demand responsive service.
8	Full Sutton and Skirpenbeck to York, travelling during the peak (12 responses)	Peak provision for Full Sutton provided by EYMS (service 747) and this contract would be unaffected by the proposed changes. There is currently no bus service to Skirpenbeck, we will explore the potential for a demand responsive service.
9	Pocklington to York, travelling during the peak (21 responses)	Peak provision for Pocklington provided commercially by EYMS (services 45/46/X46).
10	Pocklington to York, travelling off peak (15 responses)	Off peak provision for Pocklington provided commercially by EYMS (services 45/46/X46). There would be some reduction on Sundays, but journey opportunities would remain (services 45/X46/X47).

11	Pocklington to York, travelling during the evening (15 responses)	Evening provision is a mix of commercial and supported services. These contracts would be unaffected by the proposed changes.
12	Hook to Goole, travelling during the peak (27 responses)	This issue is around the lack of school transport between Hook and Goole. As the distance is under the statutory 3 miles the council is not required to provide transport. We will explore the potential for a demand responsive service.
13	Burstwick to Hedon and Hull, travelling off peak (17 responses)	Off peak provision for Burstwick provided commercially by EYMS (services 75/76/77).
14	Burstwick to Withernsea, travelling during the evening (16 responses)	Evening provision for Burstwick provided commercially by EYMS (services 75/76/77).
15	Paull to Hedon and Hull, travelling during the peak (16 responses)	Peak provision is a mix of commercial and supported services. These contracts would be unaffected by the proposed changes.
16	Hedon to Hull, travelling during the peak (10 responses)	Peak provision is mainly commercially provided by EYMS (services 78/277/75/76/77).
17	Hedon to Hull, travelling off peak (20 responses)	Off peak provision for Hedon provided commercially by EYMS (services 78/277/75/76/77). Sunday service would be reduced when supported services 78/277 cease, but other journeys are available (service 75).
18	Hedon to Hull, travelling during the evening (11 responses)	Evening provision is a mix of commercial and supported services. The evening services 78/277 would cease, but other journeys are available (services 75/76/77).
19	Skirlaugh to Hull, travelling during the peak (10 responses)	Peak provision for Skirlaugh provided commercially by EYMS (service 240).
20	Skirlaugh to Beverley, travelling off peak (10 responses)	Off peak provision is a mix of commercial and supported services travelling through Skirlaugh to Beverley from other villages. The proposed changes would see the 241 service cease, but daily (Mon-Sat) service is maintained with services 242 and 243.
21	Preston to Hedon and Hull, travelling off peak (18 responses)	Off peak provision for Preston provided commercially by EYMS (services 78/277). Sunday service would cease from April 2017.

Not Met by the Current Commercial/Supported Bus Network

We would take no further action in relation to these issues, unless specified in individual responses.

	Need Identified	East Riding's Response to the Identified Need
22	Cherry Burton to Beverley, travelling during the peak (12 responses)	Monday to Friday the peak provision only operates on schooldays and times do not suit commuter journeys. Saturday there is no peak provision. We would explore the potential for a demand responsive service.
23	Cherry Burton to Beverley, travelling during the evening (10 responses)	There is no evening service between Cherry Burton and Beverley.
24	Cherry Burton to York, travelling off peak (11 responses)	There is no direct bus service between Cherry Burton and York, the only option would be via Beverley (but this is a very limited service). We would explore with EYMS diverting any X46 journeys via Cherry Burton. In addition we would also explore the potential for a demand responsive service.

25	Lockington to Beverley, travelling during the peak (14 responses)	There is no peak service between Lockington and Beverley. We would explore the potential for a demand responsive service.
26	Swanland to Beverley, travelling off peak (21 responses)	The Monday to Friday service is very poor only allowing 45 minutes in Beverley. The Saturday service provides an additional return from Beverley at 1400. We will explore with EYMS if any further Monday to Friday journeys could be extended to Swanland.
27	Full Sutton and Skirpenbeck to York, travelling during the evening (21 responses)	There is no evening service between Full Sutton, Skirpenbeck and York. This is an aspirational need and not a strategic unmet transport need.
28	Pocklington to local Doctor's Surgery (45 responses)	This is an information issue, as an hourly bus service exists between central Pocklington and the GP Surgery. We will work with the GP Surgery and community transport providers to look at needs from outlying areas.
29	Bubwith to Selby, travelling during the peak (11 responses)	Existing service is timed around students attending Selby High School and Selby College. Morning times would be suitable for commuters, but afternoon journey leaves too early (1625). We will explore the potential for a later journey from Selby with Thornes.
30	Roos to Hedon and Hull, travelling during the peak (10 responses)	There is currently no peak bus linking Roos with Hedon and Hull. The previous commercial service was withdrawn by EYMS in November 2014 due to low passenger demand. We will work with the local community to understand more clearly their needs at peak times.
31	Skirlaugh to Hull, travelling during the evening (20 responses)	There is a limited commercial service into Hull, but no return journey. The previous commercial service was withdrawn by EYMS in June 2014 due to low passenger demand.

Currently Met by the Supported Bus Network, but Will be Adversely Affected by the council's Proposed Changes

	Need Identified	East Riding's Response to the Identified Need
32	Middleton on the Wolds to Driffield, travelling off peak (10 responses)	Off peak provision will be reduced and it will be more restrictive when people can undertake their journey. However travel opportunities would remain. We would explore the potential for a demand responsive service.
33	Lockington to Beverley, travelling off peak (13 responses)	Off peak provision is very limited Monday to Friday. The proposed changes would end the very limited off peak service on Saturdays. We would explore the potential for a demand responsive service.
34	Rawcliffe to Goole, travelling off peak (16 responses)	Off peak provision between Rawcliffe and Goole is provided commercially by Arriva Yorkshire (services 400/401). However the service to Rawcliffe Bridge is operated by EYMS with a small de-minimis payment from the council. This payment would end under the proposals, but it is possible EYMS would retain the service commercially and we will discuss this with EYMS.
35	Paull to Hedon and Hull, travelling during the evening (30 responses)	Evening service is currently funded by the council. The proposed changes would end any evening provision for Paull.
36	Burton Pidsea to Hedon and Hull, travelling off peak (43 responses)	A new pilot service (CB3) is currently meeting this need with external funding, but long term funding may be needed if the service does not generate patronage to make it self-sustaining.

Service Issues from Parish Champion Questionnaires

Where an identified travel need has more than 10 responses they have been selected for analysis.

AREA: EAST WOLDS AND COASTAL (I)

Peak:	Pre 0900, 1600 to 1800
Off Peak:	0901 to 1559
Evening:	After 1801

Travel Need Identified:	Skerne and Wansford to Driffield
Number of Responses:	15
Time of Need Identified:	Off Peak

CURRENT SERVICE PROVISION		
Tuesday and Thursday		
Skerne	1020	1250
Driffield	1030	1300
Driffield	1010	1240
Skerne	1020	1250

Monday to Saturday				
Wansford	0710	0930	1230	1530

Service Issues from Parish Champion Questionnaires

Where an identified travel need has more than 10 responses they have been selected for analysis.

AREA: GOOLE AND HOWDENSHERE (12)

Peak:	Pre 0900, 1600 to 1800
Off Peak:	0901 to 1559
Evening:	After 1801

Travel Need Identified:	Hook to Goole
Number of Responses:	27
Time of Need Identified:	Peak

CURRENT SERVICE PROVISION
Monday to Friday: No Service
Saturday: No service
Sunday: No service

Comments

We believe this is an issue around the lack of school transport between Hook and Goole. However the distance is under 3 miles and the local authority is not required to provide transport. We will explore the potential for a demand responsive service.

NO DIRECT SERVICE

Comments

There is no direct bus service between Cherry Burton and York.

The only option would be to travel via Beverley, but as already identified the bus service between Cherry Burton and Beverley is very limited.

We would explore with EYMS diverting any X46 journeys via Cherry Burton.

In addition we would also explore the potential for a demand responsive service.

Evening:	After 1801

Travel Need Identified:	Roos to Hedon and Hull
Number of Responses:	10
Time of Need Identified:	Peak

NO SERVICE

Comments

There is currently no peak bus service linking Roos with Hedon and Hull.

EYMS cancelled the commercial peak services 174/175 in November 2014 due to low passenger numbers.

At the time no replacement service was provided.

However this has led to the formation of the Burton Pidsea Better Transport Group and a parish transport survey resulting in Roos/Burton Pidsea off peak bus service to Hedon.

We will work with the local community to understand more clearly their needs at peak times.

AREA: HOLDERNESS (31)

Comments

Goole to Rawcliffe has a good off peak service.
The service between Goole and Rawcliffe Bridge currently has a small amount of de-minimis funding which would end on 01/04/2017. However EYMS may keep the service commercially.
If EYMS don't continue with the 88 service then Rawcliffe Bridge would be left without a bus service.

Sunday: No Service

Comments

The evening service would cease from 1st April 2017, leaving Paull without any evening service. We will explore the possibility of retaining a journey at 1810 from Hull.

Comments

Burton Pidsea Better Transport Group was formed to address the identified off peak need for travel to Hedon and Hull.

Their new service CB3 has been successful in drawing down external funding. The Village Link and 173 services are due to end in April 2017.

If CB3 is not financially sustainable then all off-peak travel between Burton Pidsea and Hedon/Hull will cease.

The only other service is East Riding's service 243 to Beverley which is unaffected by these changes.

Section 3

Summary of our proposals for Supported Bus services

This section contains:

1. Our Balanced Scorecard – showing how we evaluated our supported bus contracts
2. A summary of which supported bus contracts would be withdrawn if our proposal was accepted

BALANCED SCORECARD

To evaluate our existing supported bus contracts, in accordance with the results of the transport needs assessment process and the council's Statutory Duties in regards to the provision of bus services, we devised the following criteria and scored contracts against them:

Passenger Numbers		Sub per Passenger Journey		Social Need		Average Passenger Number		Mitigation		CO2 Kg	
Over 20,001	1	Under £0.25	25	Rural Work (Peak)	1	Over 31	1	Investigating Alternatives	0	Negative return	2
10,001 to 20,000	2	£0.26 to £1.00	1	Urban Work (Peak)	2	21 to 30	2	Part of route covered by registered local bus services or we are investigating alternatives for peak work services	10	Emissions 0 to 3	-1
6,001 to 10,000	5	£1.01 to £2.00	4	All	3	16 to 20	3				
2,501 to 6,000	10	£2.01 to £3.49	6	Rural All Day	4	11 to 15	4				
1,001 to 2,500	15	£3.50 to £7.50	9	Town Service	5	6 to 10	5	Part of route covered or option for walking and cycling	15	Emissions 3.1 to 5	-2
101 to 1,000	20	£7.51 to £10.00	12	Rural Shopping (Off Peak)	6	Under 5	6	We would explore the potential for a demand responsive service	25	Emissions 5.1 to 7	-3
Under 100	30	Over £10.01	15	Urban Shopping (Off Peak)	7			Substantially similar registered local bus service	50	Emissions over 7.1	-4
				Rural Evening	18						
				Urban Evening	19						
				Rural Sunday	20						
				Urban Sunday	25						
				Non-Statutory School	30						

The results of this process are shown in the tables on the following six pages.

A high total score is a lower priority.

Key

Contracted services end 01/04/2017

Contracted services end 01/04/2018

Section 4

Individual timetables for bus services which could be affected by our proposals

This section includes the bus timetable for each service that could be affected.

The relevant parts of the timetables have been shaded as follows:

In orange (for contracts to end on 1 April 2017)

In blue (for contracts to end on 1 April 2018)

The timetables show exactly what services would be lost if the contracts were terminated. It is important to note that anything which is not shaded is currently provided commercially by the operator and it would be for the bus operator to decide what happens to those journeys in the long term.

Details are also provided on the timetables of either potential alternative journey opportunities, potential mitigating service options or the fact that the bus operator may choose to operate what would be lost under the contract on a commercial basis. As part of the consultation plan discussions will be undertaken with bus operators about this option.

SERVICE 2

We would give our contractor notice to end this contract from 1 April 2017

Service:	Bubwith – Market Weighton
Operated by:	Thornes Independent

Friday	
Bubwith – Vine Gardens	0900
Foggathorpe – Crossroads	0905
Holme Moor – Village Hall	0915
Back Lane – Springfield	0917
Howden Road – Beacon View	0920
Market Weighton	0930

Service:	Market Weighton – Bubwith
Operated by:	Thornes Independent

Friday	
Market Weighton	1130
Howden Road – Beacon View	1140
Back Lane – Springfield	1143
Holme Moor - Village Hall	1145
Foggathorpe – Crossroads	1155
Bubwith – Chain Bar	1200

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative people should travel on East Yorkshire Motor Services service 18 between Bubwith and Market Weighton.

SERVICE 5

We would give our contractor notice to end this contract from 1 April 2017

Service:	Beverley – Model Farm (Town Service)
Operated by:	Acklams Coaches

Monday – Friday					
Beverley Bus Station	0930	1030	1130	1330	1430
Model Farm	0932	1032	1132	1332	1432
Norwood Grange	0935	1035	1135	1335	1435
Humber Keel	0943	1043	1143	1343	1443
Beverley Bus Station	0950	1050	1150	1350	1450

Saturday						
Beverley Bus Station	0930	1000	1030	1130	1330	1430
Model Farm	0932	1002	1032	1132	1332	1432
Norwood Grange	0935	1005	1035	1135	1335	1435
Humber Keel	0943	1013	1043	1143	1343	1443
Beverley Bus Station	0950	1020	1050	1150	1350	1450

The council would give our contractor notice to cease the diversion via Norwood Grange.

It is possible the contractor would retain the diversion on a commercial basis.

As an alternative people would need to walk to Hull Bridge Road where alternative services are available to/from Beverley (e.g. EYMS service 121).

SERVICE 9

We would give our contractor notice to end this contract from 1 April 2017

Service:	Cottingham Castle Hill Hospital - Hull City Centre - Bransholme

The council would give our contractor notice to cease the journey highlighted in orange above.

It is possible the contractor would retain these journeys on a commercial basis.

As an alternative people would need to catch the EYMS service at 1345 from Bridlington to Driffield.

As an alternative for the late night service people would need to catch EYMS services X46/X47.

There would be no alternative for Barmby Moor and Wilberfoss.

The council would give our contractor notice to cease the journey highlighted in blue above.

It is possible the contractor would retain this journey on a commercial basis.

As an alternative people would need to catch the EYMS service from Bridlington at 1345.

The council would give our contractor notice to cease the diversion via Burstwick for the four journeys highlighted above.

It is possible the contractor would retain the diversion on a commercial basis.

As an alternative people should travel on any other service 75 via Burstwick, which currently has an hourly frequency.

PLEASE NOTE: There are NO changes planned by the council to any journeys on Monday to Saturday

SERVICE 76C

We would give our contractor notice to end this contract from 1 April 2018

The council would give our contractor notice to cease the diversion via Westlands Estate, Hedon, highlighted above. It is possible the contractor would retain the diversion on a commercial basis. As an alternative people would need to walk to Hull Road where alternative services are available to/from Hedon (e.g. EYMS services 76/77).

The council would give our contractor notice to cease the diversion via Paull on the journeys highlighted in orange above. It is possible the contractor would retain the diversion on a commercial basis. As an alternative people would need to catch the 0843, 1018 or 1733 journey.

The council would give our contractor notice to cease the evening journeys operated by Stagecoach Hull highlighted above. It is possible the contractor would retain the diversion on a commercial basis. As an alternative people would need to catch the EYMS service 75 between Hull and Hedon. There would be no alternative evening service for Paull, Sproatley and Preston. We will explore the possibility of retaining a journey at 1810 from Hull.

SERVICE 78/79/80/277

We would give our contractor notice to end the journeys in orange from 1 April 2017

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative people should travel on Arriva Yorkshire's service 400/401 between Goole and Rawcliffe.

There would be no alternative service for Rawcliffe Bridge.

SERVICE 88

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	Goole – Thorne
Operated by:	East Yorkshire Motor Services

Saturday						
Goole Interchange	0850	1010	1130	1340	1500	1620
Goole Supermarket	0852	1012	1132	1342	1502	1622
Goole Boothferry Road	0856	1016	1136	1346	1506	1626
Rawcliffe Green	0907	1027	1147	1357	1517	1637
Rawcliffe Bridge	0912	1032	1152	1402	1522	1642
Moorends Winning Post	0918	1038	1158	1408	1528	1648
Thorne Market Place	0926	1046	1206	1416	1536	1656

Service:	Thorne - Goole
Operated by:	East Yorkshire Motor Services

Saturday						
Thorne Market Place	0930	1050	1210	1420	1540	1700
Moorends Winning Post	0938	1058	1218	1428	1548	1708
Rawcliffe Bridge	0944	1104	1224	1434	1554	1714
Rawcliffe Green	0949	1109	1229	1439	1559	1719
Goole Boothferry Road	1001	1121	1241	1451	1611	1731
Goole Interchange	1004	1124	1244	1454	1614	1734

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative people should travel on Arriva Yorkshire's service 400/401 between Goole and Rawcliffe.

There would be no alternative service for Rawcliffe Bridge.

SERVICE 105

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	The Lawns – Beverley Road - Hull
Operated by:	East Yorkshire Motor Services

Sunday

The council would give our contractor notice to cease the part-journey highlighted above.

It is possible the contractor would retain this part-journey on a commercial basis.

As an alternative people would need to catch the earlier 121 service at 2036 from Driffeld to Nafferton or the train at 2216 from Driffeld.

SERVICE 121

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	Scarborough – Bridlington – Hull (Winter)
Operated by:	East Yorkshire Motor Services

Beverley Lockwood Road	0810	0845	0945	1045	1145	1245	1345	1445	1545	1645	1750	

The council would give our contractor notice to cease the journeys highlighted above.

It is possible the contractor would retain these journeys on a commercial basis.

As an alternative people would need to catch the 0751 from Lockwood Road to Beverley or the 0835 from Beverley to Lockwood Road.

As this is a town service people also have the option of cycling and walking.

SERVICE 122

We would give our contractor notice to end the journeys in blue from 1 April 2018

Service:	Molescroft - Hull
Operated by:	East Yorkshire Motor Services

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative people would need to catch the through services along the main roads.

There would be no service diverting into the housing estates off the main roads.

As this is a town service people also have the option of cycling and walking.

SERVICE 160

We would give our contractor notice to end the journeys in orange from 1 April 2017

Beverley Bus Station	0751	0851	1115	1315	1515	1730	1846

The council would give our contractor notice to cease the part-journey highlighted above.

It is possible the contractor would retain this part-journey on a commercial basis.

As an alternative people would need to catch the next 180 service at 0839 from Walkington to Beverley.

PLEASE NOTE: There are NO changes planned by the council to any journeys on Saturdays.

SERVICE 180

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	Beverley – Cottingham – Hessle - Swanland
Operated by:	East Yorkshire Motor Services

Sunday			
Beverley Bus Station	1200	1600	1800

The council would give our contractor notice to cease the journeys highlighted above.

It is possible the contractor would retain this journey on a commercial basis.

As an alternative for the 0605 and 0635 from Hornsea, people would need to catch the journey at 0725 from Hornsea.

As an alternative for the 1030, 1230, 1430 or 1915 from Hornsea, people would need to catch the 0930, 1130, 1330, 1530 or 1630 from Hornsea.

SERVICE 246

We would give our contractor notice to end the journeys in orange from 1 April 2017

It is possible the contractor would retain the service on a commercial basis.

As an alternative we will explore the potential for a demand responsive service.

SERVICE 502

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	Bridlington – Flamborough - Buckton
Operated by:	BusKing Ltd

Sunday					
Bridlington Bus Station	1030	1130	1330	1430	1530
Queensgate/Roxy	1035	1135	1335	1435	1535
Kirkgate	1037	1137	1337	1437	1537
Sewerby Park Gates	1044	1144	1344	1444	1544
Flamborough Dog and Duck	1050	1150	1350	1450	1550
Bempton	1056	1156	1356	1456	1556
Buckton	1058	1158	1358	1458	1558

Sunday					
Buckton	1100	1200	1400	1500	1600
Bempton	1102	1202	1402	1502	1602
Flamborough Dog and Duck	1108	1208	1408	1508	1608
Sewerby Park Gates	1114	1214	1414	1514	1614
Kirkgate	1121	1221	1421	1521	1621
Queensgate/Roxy	1123	1223	1423	1523	1623
Bridlington Bus Station	1128	1228	1428	1528	1628

The council would give our contractor notice to cease the Sunday service highlighted above.

It is possible the contractor would retain this service on a commercial basis.

There are alternative Sunday services during the Summer between Bridlington and Flamborough, but not Bempton and Buckton.

SERVICE 506/508

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	506 Bridlington Bus Station - Hospital - West Hill Circular
Operated by:	East Yorkshire Motor Services

Sunday						
Bridlington Bus Station	1010	1125	1240	1455	1610	1725
Bessingby Road	1018	1133	1248	1503	1618	1733
Thornton Road	1024	1139	1254	1509	1624	1739
Bridlington Hospital	1030	1145	1300	1515	1630	1745
Bessingby Road	1035	1150	1305	1520	1635	1750
Bridlington Bus Station	1042	1157	1312	1527	1642	1757

Service:	508 Bridlington Bus Station - New Pasture Lane Circular
Operated by:	East Yorkshire Motor Services

Sunday							
Bridlington Bus Station	0930	1045	1200	1315	1530	1645	1800
Trentham Drive	0944	1059	1214	1329	1544	1659	1814
Burstall Hill	0951	1106	1221	1336	1551	1706	1821
Bridlington Bus Station	1005	1120	1235	1350	1605	1720	1835

The council would give our contractor notice to cease these services.

It is possible the contractor would retain the services on a commercial basis.

As an alternative people would need to catch the through services along the main roads.

There would be no service diverting into the housing estates off the main roads.

As these are town services people also have the option of cycling and walking.

PLEASE NOTE: There are NO changes planned by the council to any journeys on services 506 and 508 on Monday to Saturday.

SERVICE 517

We would give our contractor notice to end the journeys in orange from 1 April 2017

Service:	517 - Bridlington Bus Station - Kirkgate - New Pasture Lane Circular
Operated by:	East Yorkshire Motor Services

Key
NSch - Non School days

Monday to Friday										
Day									NSch	
Bridlington Bus Station	0850	0950	1050	1150	1250	1350	1450	1550	1650	1750

Bridlington Bus Station	0925	1025	1125	1225	1325	1425	1525	1625	1725	1825

The council would give our contractor notice to cease the Service 517 journey highlighted above.

It is possible the contractor would retain this journey on a commercial basis.

As an alternative outbound service people would need to catch the earlier journey at 1650 or travel on Service 121 from Bridlington at 1710 or 1830, alighting on Marton Road for Bridlington Old Town and Scarborough Road for New Pasture Lane.

For the inbound journey people would need to catch the earlier journey at 1707 or travel on Service 121 from Scarborough Road/New Pasture Lane at 1812.

From Bridlington Old Town people would need to catch the bus on Marton Road.

PLEASE NOTE: There are NO changes planned by the council to any 507 journeys.

Service:	517 - Bridlington Bus Station - Kirkgate - New Pasture Lane Circular
Operated by:	East Yorkshire Motor Services

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative we will explore the potential for a demand responsive service.

SERVICE Village Link

We would give our contractor notice to end this contract from 1 April 2017

To travel on Village Link you must book your journey in advance.

The council would give our contractor notice to cease this service.

It is possible the contractor would retain the service on a commercial basis.

As an alternative we will explore the potential for a demand responsive service.

Consultation Option 1 – Other Bus Services funded by East Riding of Yorkshire council

In our consultation questionnaire (Question 6), Option 1 would be for the council to withdraw all supported bus services.

The timetables in this consultation highlight the journeys/services that could be withdrawn under option 2, but in order to provide you with the full information to respond to this question the journeys/services listed below are also financially supported by the council.
