6	Trend charts	
6.1-6.8	National total and sector level	71
7	Peak/Off-peak results	
7.1	London and South East sector	87
7.2	London and South East operators	89
8	Individual train company results by route	
8.1	Overall satisfaction with the journey	115
8.2	The value for money of the price of your ticket	116
8.3	Punctuality and reliability of the train	117
8.4	Sufficient room for all the passengers to sit/stand	118
8.5	Overall satisfaction with the station	119
9	Key results by different passenger groups	
9.1	Journey purpose	120
9.2	Age	121
9.3	Gender	122
10	Sample profile	
10.1	Weighted sample profile	123
10.2	Unweighted sample profile	124
11	Technical appendix	
11.1	Standard reports produced for NRPS	125
11.2	Rail sectors	126
11.3	How routes are defined	127

Questionnaires are normally handed out at stations to customers about to board a train. A reply paid envelope is provided for returning questionnaires.

Each Train Operating Company (TOC) is sampled separately. Interviewers are given a number of questionnaires to hand out at a station. At Gatwick and Heathrow Airports and for some shifts at certain London termini and other large stations, questionnaires are handed out to passengers of a specific TOC.

From Autumn 2003 onwards, at all other stations, questionnaires are handed out to passengers of any TOC (in the past, these were also targeted). The number of questionnaires handed out will depend on:

- the size of station
- time of day
- length of shift.

TOC data is compiled to provide a national sample.

Fieldwork takes place each Spring (February/March) and Autumn (September/October); until Spring 2003 fieldwork duration was 3 weeks. In Autumn 2003, fieldwork was extended to an 11 week period, from 26 August to 9 November, to provide a better representation of journeys.

Quotas for returned questionnaires are set overall and by weekday/weekend, journey purpose and station size. All data for a TOC in this Report is weighted up to the number of passenger journeys annually on the TOC and the profile of those journeys by:

- weekday/weekend
- journey purpose (Commuter, Business, Leisure)
- station size (this profile is applied for each TOC building block).

The data for number of journeys and profiles by these variables was generated from ORR data (2012-13), and informed by ticket sales information and some consultation with TOCs.

The stations for each TOC were stratified by number of passengers and a number of stations in each size stratum is sampled. This sample design and weighting ensures that data is representative of all passenger journeys made on each TOC. National results are constructed by combining data for all TOCs together, weighting by number of journeys.

From Autumn 2007 standard region definitions have been used replacing older rail regions. Analysis for the old regions is available on request. For more details of NRPS methodology, visit www.transportfocus.org.uk

From Spring 2017, passengers were also offered the choice of completing the questionnaire online.

Spring 2017 (Wave 36)

Fieldwork for Wave 36 (including boosts) was undertaken between 30th January and 30th April 2017. No fieldwork took place between 13th - 23rd April due to the Easter holidays.

During fieldwork there were issues with two lines, the London Overground Gospel Oak to Barking route was closed until Monday 27th February; therefore limited shifts were conducted on this line. The Blaenau Ffestiniog - Llandudno line was also closed due to damage caused by Storm Doris, no shifts were conducted on this line.

There were two periods of industrial action during fieldwork (Monday 13th March & Saturday 8th April), in most cases the effect of these was limited but a small number of shifts could not go ahead as planned and had to be re-scheduled.

On the 23rd February most of the UK was hit by Storm Doris, this did result in a number of shifts not taking part as planned due to serious flooding, trains on lines, bus replacements etc. All shifts were re-arranged.

There were two separate incidents of structural damage in stations affecting fieldwork. In March emergency repairs were carried out over a week at Liverpool Lime Street due to a wall falling onto the tracks, this did affect a small number of shifts carried out at this station and also stations with lines running to Liverpool Lime Street. On 12th April shifts were postponed for Heathrow Connect due to bricks causing damage to the line.

Planned & unplanned engineering works again meant that some other shifts were also rescheduled, particularly at weekends. Shifts were only rescheduled if the station was closed as a result of the engineering works or bus replacements were in place for all lines. If some trains were still running the shift went ahead as planned.

Autumn 2016 (Wave 35)

Fieldwork for Wave 35 (including boosts) was undertaken between the 1st September and 20th November 2016.

Due to industrial action a small number of Southern fieldwork shifts could not go ahead as planned and had to be re-scheduled. The London Overground Gospel Oak to Barking route was not in operation for the whole of the fieldwork period; therefore no fieldwork shifts were conducted on this route.

As with previous waves, planned and unplanned engineering works/problems meant that some other shifts were also rescheduled (this particularly affected shifts during weekends). As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

Spring 2016 (Wave 34)

Fieldwork for Wave 34 (including boosts) was undertaken between the 11th January and 20th March 2016.

Due to poor weather and a resulting landslide affecting particular routes during fieldwork, a small number of fieldwork shifts were unable to be completed and were replaced.

Service suspension of Heathrow Connect services for about two weeks towards the end of fieldwork meant that quite a large number of shifts could not be completed for this TOC. This means that the sample size is lower than normal, although the results are still robust at TOC level.

As with previous waves, planned and unplanned engineering works/problems meant that some other shifts were also rescheduled (this particularly affected shifts during weekends). As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

Autumn 2015 (Wave 33)

Fieldwork for Wave 33 (including boosts) was undertaken between the 1st September and 12th November 2015.

As with previous waves, planned and unplanned engineering works/problems meant that some other shifts were also rescheduled (this particularly affected shifts during weekends). As usual, shifts were only rescheduled if the engineering work caused a station or line closure. Whenever possible the shifts went ahead as planned if there were still train services running.

The following reports are produced each wave:

At a glance for each TOC	Short summary reports showing headline results
Full Report	Summary tables for all TOCs (including comparison with one year previously), trend tables for last 10 waves by TOC, trend charts for the main NRPS factors, peak vs off-peak analysis for LSE TOCs.
Multivariate Report	Multivariate analysis showing drivers of satisfaction and dissatisfaction nationally, by sector and by TOC for latest two NRPS waves combined.
PTE Report	NRPS reports for all PTEs (exactly the same format as TOC reports).
Rankings Report	Results since wave 10 showing satisfaction score for each TOC by factor, significant changes since one year earlier, national rank and rank in TOC type.
Stakeholder Report	Summary national trend charts for all main factors, trend charts by age/journey purpose & gender, summary results for leisure/business passengers & commuters, one page for each factor showing national trend and results for all TOCs, Government Office Region charts for each factor and simple tables for some questions that are not included in the main NRPS report.
Stations Report	Percentage of passengers satisfied by each main factor for last 10 waves for all Network Rail stations covered by NRPS during that time period.
TOC Report	Tables and graphs showing results for TOC (including comparisons with one year previously and with relevant sector), trend charts for all factors (including sector and benchmark (if relevant) comparisons), summary profile of passengers surveyed, station sample sizes for TOC and sample composition & weighting.
Virtual TOC Report	NRPS reports for TOCs that used to exist or that are planned to exist in the future (exactly the same format as TOC reports).

Sector definitions

The sector results used in this report contain the following TOCs (non-franchised operators are excluded):

London and South East Operators	<ul style="list-style-type: none"> c2c Chiltern Railways Gatwick Express* Great Northern* Great Western Railway Greater Anglia London Midland London Overground South West Trains Southeastern Southern* TfL Rail Thameslink*
Long Distance Operators	<ul style="list-style-type: none"> CrossCountry East Midlands Trains TransPennine Express Virgin Trains Virgin Trains East Coast
Regional Operators	<ul style="list-style-type: none"> Arriva Trains Wales Merseyrail Northern ScotRail

The following TOCs were rebranded in Autumn 2016:

- Greater Anglia (from Abellio Greater Anglia)
- Northern (from Northern Rail)
- TransPennine Express (from First TransPennine Express)

* Part of the Govia Thameslink Railway franchise

How are routes defined

The routes have been defined in conjunction with the train companies. By TOC the areas covered by each route are as follows:

The following TOCs were rebranded in Autumn 2016:

- Greater Anglia (from Abellio Greater Anglia)
- Northern (from Northern Rail)
- TransPennine Express (from First TransPennine Express)

Arriva Trains Wales: Cardiff & Valleys

Journeys on the Valley lines around Cardiff.

Arriva Trains Wales: Interurban

Journeys on the Fishguard Harbour – Manchester Piccadilly, Milford Haven – Manchester Piccadilly, and Holyhead – Cardiff Central lines.
