National passenger sentiment

Passengers in the Rail User Survey share their experience across the network - quotes reflect a snapshot of common themes across operators.
"**Helpful and friendly station staff** (I travel with a disability), accessibility options, signage, and verbal information on stations and trains."

"I had a split ticket as this was cheaper, found for me by staff... **Train companies should offer the best price possible to all users**... it shouldn't be a lottery or tricky test."
